

Bayfield Lions Club Membership Plan 2009- 2010

The Bayfield Lions have had a fairly successful past few years in increasing membership from 12 in 2004 to 23 in 2009. How does a membership committee come up with a new and exciting ways of increasing membership, they do not. The committee will continue to encourage members to bring guests out to meetings and asking friends neighbors and relatives to help in the club projects and participate in activities.

- Have a quest speaker and encourage members to bring a guest
- Host a fun card night with spouses and friends
- Participate in community events keeping the Lions profile front & centre
- Thank the people in the community for supporting the fundraising efforts
- Explore more ways to support the youth in our community
- Encourage newer members to step up to the challenges of executive positions within the club
- At year end invite all those who have assisted the club when asked to attend a year end bbq and thank the members and spouses for their work in the club throughout the year.
- Have a goal of membership increase of 10%
