

Drumbo Lions Membership Plan

Our goal at the start of the year was to try keep the members that we have and hopefully pick up one or two new members.

We have one new member so far this year but unfortunately we had one member resign due to time availability.

We are going to have a new member drive this spring and attempt to go door to door and personally talk to people to show what we are about.

The big focus with the club right now is to try and keep and motivate the existing members so things don't get stale. We want the younger members to voice their ideas and the senior members to understand that we need to let these ideas be accepted.

Our club has a good variety and we get along excellent. I believe our club is in good shape and will keep thriving.
