

Monkton Lions Club Membership Plan 2011-2012

- The Monkton Lions Club determined it was time to evaluate and try to identify who we were and what gifts and resources we had.
- It was decided to try and come up with a new and challenging Club project to take advantage of who we were.
- It is to be a true Service Project
- We are targeting total Club participation through various roles.
- We are targeting networking with community to achieve the success of this project.
- We are targeting networking with District to achieve the success of this project.

Through our genuine belief in this Service Project,
and our excitement and passion because of this belief,
We will be a revitalized more active membership.

- There will still be our invite a perspective newbie out for a dinner meeting in Jan and our appreciation BBQ for volunteers and community in June. Which we feel will be more of a celebration and a sharing of this new Project.

“WE BELIEVE”
