

Brantford Lions
Club Membership Plan

I am reporting that I have spoken with several perspective Lions members within our community. These business people are serving our community in some way at the present time, however, not through involvement in a Service Club.

I have spoken with Julia and some of our Lions with regards to this matter.

We are working on an information package to share with new perspective Lions Club members so that they become more familiar with what projects North Brantford Lions are involved and how they can help out our community.

Respectfully
