

2009-2010 Vanastra Membership plan

After some discussion with the president and our fellow members we have committed to attract new and old members in our club. We are also committed to make February our next membership night; Along with this night we will be active in searching for new people to help carry on the great work that Lions do.

It has become a concern to our club that there are just too many old members who left for one reason or another and now they are in our sights.

From now on we will not install new members for at least 3 months as we will be giving them the proper orientation that we feel that is needed. It is important that they see beyond the club level, this will ensure that they understand the internal working of club and give these perspective members a better understanding of Lions. We are sure we will turn our minuses into pluses. Money and time have been allocated to carry out this work.

Respectfully submitted
Lion Glen Mc Lachlan
Membership Chair
