

Stratford Lions Club membership plan

The members of the club are identifying individuals in the community to invite to a meeting. At this meeting it is our intention to educate them on what Lions is all about and what we are working on. We are going to ask these individuals to assist us in efforts to make our community a better place to live and to help those less fortunate than us.

It is our goal that we ask one and they will ask one and hopefully we will build up membership to take on larger projects.

Yours in Lionism
